**Methodological Notes:** Domestic Courses with International Content means courses that likely have substantial discussion of int. legal standards. Comparative law courses are courses that focus on contrasting the domestic legal standards of two or more states.

Thanks are extended to all those faculty members at Canada's law schools who commented on a draft version of this survey. We have done our best to incorporate their changes. Any oversights or errors are unintended.

**Notes au sujet de la méthodologie:** Les cours de droit domestique avec un contenu international veut dire que ces cours tendent probablement à discuter des normes juridiques internationales de façon substantielle. Les cours de droit comparatif sont des cours qui visent la comparaison de normes juridiques domestiques de deux ou plusieurs états.

Mes remerciements à tous les universitaires des facultés de droit du Canada qui ont donné suite au projet de sondage. Nous avons fait de notre mieux pour intégrer les changements reçus. Toute erreur ou omission est involontaire.
